Best Practices 2021-22 & 2022-23:

1. **EdNirvana App:** During the session 2020-21, an app was created by the Management's sister company 'Risersoft'. This LMS was named Ednirvana, created with the motto of transferring the knowledge to the students of far flung areas and thus continue their learning even when not attending the college. The basic premise behind the building of the app is that students can have access to high-quality study material, notes and video-recorded lectures which they can download, read, save and print for free.

2. 5 'S': **Suswagatam:** An annual Induction programme for the first year students of the college where they are acquainted with the various departments and committees.

Samvaad: An annual face to face interaction session with the Principal, teachers and the students as well as the administrative staff. The students are provided with an open platform where they are free to voice out their problems, to be immediately redressed by the concerned faculty.

Sanidhya: An annual parent-teacher meeting.

Sudiksha: A two-day function in which Indian culture is showcased on the first day and Sports Day on the second day.

Sajha Manch: An open interactive session between the teachers and Principal where teachers voice out their problems and give suggestions for improvement.
