

7.3.1. – Institutional Distinctiveness

Our college is working to provide education to equip our students for playing a meaningful role at home, workplace and in society on their employability. To fulfill this vision the college has been doing the following efforts. We provide subject knowledge as well as essential life Skills of Modern day living to the Students. To provide this knowledge we conduct participative interactive class room teaching. There are regular workshops, guest lectures and various academic, non-academic competitions conducted throughout the session. Experiential activities and field visits are also conducted by the college. Group discussions, movie screenings, remedial classes are also conducted. Lots of efforts are being done to inculcate ICT in the teaching learning. To make this possible every department in the college is ICT equipped. Campus is Wi-Fi enabled and there is a well equipped computer lab in the campus.
